## DETAILED ACTION

### *Specification*

1. The abstract of the disclosure is objected to because it contains legal phraseology. Correction is required. See MPEP § 608.01(b).

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Carobolante et al (US Patent 5656897).

Carobolante et al teach a control system for brushless DC motors comprising a phase sequence device 18 for choosing what motor phase/phases will be turned on and units 24 and 26 determining what windings are being driven or not; and a method for preventing that the output transistors from the motor switching devices get saturated using the information from units 24 and 26.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 2-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2837

It is not clear what the function of the upper and lower saturation means is.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The documents cited teach different systems for controlling electrical motor using pulse width modulation.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rina I Duda whose telephone number is 703-305-0722.
